EX PARTE FILING OF PERFORMANCE-RF LLC  
REGARDING THE SAFE USE OF SMALL ANTENNAS, SECOND FURTHER NOTICE OF PROPOSED  
RULE MAKING

Dear Ms. Dortch :

Performance-RF LLC (Performance-RF) is the master representative for InfiNet Wireless products in the United States, Canada and South America. InfiNet Wireless is one of the largest Broadband Wireless Access development and manufacturing companies in the world. With more than 15 years of innovation, customer based research and product development, InfiNet's fixed, nomadic, mobile and public safety wireless connectivity solutions are the choice of Global communication corporations and governments who require uncompromising connectivity.

Performance-RF agrees with Wireless Strategies Inc. (WSI) that the addition of their proposed footnote<sup>1</sup> to Rule 101.115(c) --

*"Non-compliant antennas (antennas not meeting Category A specifications) are authorized on the condition that they must not cause harmful interference and must accept harmful interference pursuant to Rules 101.103 and 101.115(c)."*

-- will meet the Commission's objectives of permitting smaller antennas while protecting existing licensees and new applicants from harmful interference.

Respectfully submitted,

Performance-RF LLC

By: Robert Kalla, President

Dated: August 4, 2013
